

VISITING PROGRAMME

THE GREEN INDUSTRIAL MUNICIPALITY KALUNDBORG

VisitKalundborg, Kalundborg's official tourism organisation, arranges a number of technical visit programmes in the energy and environment sectors.

The programmes are the result of a unique collaboration between VisitKalundborg, Kalundborg Municipality, Cluster Biofuel Denmark and the Symbiosis Centre – as well as with a knowledge-intensive network comprising numerous private companies.

In connection with your visit we would be pleased arrange transport, overnight accommodation and meals.

Content of the technical visit programmes:

We can offer all our visitors an exciting and varied programme of visits. Please contact us for further information about the many openings we have to offer. Below is a list of some of the opportunities we offer. We would be very pleased to tell you more if you contact us.

Presentations:

1. **About CBD – Cluster Biofuels Denmark.**
2. **Symbiosis in Kalundborg**
3. **The visions of Kalundborg Green Industrial Municipality**

We can also arrange company visits along with the presentations. The company visits are thematically linked to biomass, district heating, water treatment and energy.

The companies you can visit are:

- **Inbicon**
- **Biovækst A/S**
- **Snertinge Biogas Plant**
- **Svebølle District Heating Plant**
- **Høng District Heating Plant**
